

Test Report No. 15848/13

Customer Details: Oleovicola Coop. Coldiretti - Soc. Coop. Triggiano
 Str. Vicinale S. Vito, s.n. 70019 TRIGGIANO (BA)

Date issued: Monopoli 22/07/2013

Sample Code: 15.848	Date sample received: 15/07/2013	Date analysis commenced: 16/07/13	Date analysis finished: 22/07/13
Product Category:	Olive Oils and Olive Pomace Oils (IOC)		
Product Declared:	EXTRA VIRGIN OLIVE OIL		
Label:	Extra Virgin Olive Oil C.04		
Seal :			
Sample Description:			
Quantity:	500 ml	Return of Sample:	No
Packaging:	None		
Sampling Procedure:	By the customer		

Test Name	Results	U	LOQ	LOD	R%	Method	Limit value	Remarks

(211) IOC/T.15/NC No.3 (Amended 2011)

*: TEST NOT ACCREDITED BY ACCREDIA.

Conclusions

The values resulted meet the specifications demanded for EXTRA VIRGIN OLIVE OILS by EC Regulation No. 2568/91, Commission of 11/07/1991 in force from 09/09/1991 and subsequent amendments, and by International Olive Oil Council Trade Standard COI/T.15/NC no.3/Rev.7 november 2012.

Test Report No. 15848/13

Customer Details: Oleovicola Coop. Coldiretti - Soc. Coop. Triggiano

Date issued: Monopoli 22/07/2013

The present test report is valid for all legal purposes only in its original version, stamped, signed and undersigned in all its parts or in a true copy of the original - Any partial reproduction of the present test report must be clearly authorized by the laboratory through a written and formal approval - The present test report should be considered as partial / temporary / unofficial and not valid for all legal purposes if lacking of one or more signatures, initials or showed in a copy not consistent with the true copy of the original - The analytical results hereby reported are referred uniquely to the analyzed sample - All the documents useful for traceability will be kept for 4 years in our archive - Sample storage: 5 days for perishables, 30 days for imperishable except for particular instructions with the customer and detailed information about the analytical method.

U: Expanded uncertainty expressed with the same unit of measurement of the result obtained, calculated using a K factor = 2 for assuring a confidence level around 95% or, for microbiological tests, confidence interval with level of probability around 95%. For microbiological test the result is reported as "estimated" number of microorganism per milliliter or gram if it is based on count less than 10, but at least 4.

LOD: Limit of Detection, the lowest concentration of analyte that can be detected, but not necessarily quantitated under the stated test conditions.

LOQ: Limit of Quantification, the lowest concentration of an analyte that can be determined with acceptable precision and accuracy under the stated conditions of the test.

ND: Not Detectable as lower than the LOD of the test method.

R% : Mean Recovery in percentage (this value is not used to amend pesticides analytical results).

Outlier

NIL: not identifiable level
